

# BISHESH KHADKA

(708) · 646 · 3598

bkhadka@mit.edu

## EDUCATION

### Massachusetts Institute of Technology

2014-2018

#### B.S. Candidate in Electrical Engineering & Computer Science

6.824	Distributed Systems	6.046	Design and Analysis of Algorithms
6.172	Performance Engineering	6.033	Computer Systems
6.819	Computer Vision	6.036	Introduction to Machine Learning
6.008	Introduction to Inference	6.005	Software Construction

## TECHNICAL EXPERIENCE

### eero

May 2017 - Aug 2017

*Software Engineer Intern*

*San Francisco, CA*

- Extend capabilities of client facing API responses in Scala.
- Develop stress testing platform for cloud services.

### NVIDIA

May 2016 - Aug 2016

*Software Engineer Intern*

*Santa Clara, CA*

- Researched wireless protocol enhancements; simulated the client-side optimizations with C sockets.
- Deployed a command-line based test system for Android connectivity in Python as an infrastructure tool.
- Created a full-stack webtool for connectivity bug report parsing with Django & SQL.

### MIT Media Lab: StreetScore

Feb 2016 - June 2016

*Undergraduate Researcher*

*MIT*

- Optimized data pipeline for Google Maps based training data in MATLAB for the StreetScore project.

### Hadron Industries

Jan 2016

*Software Engineer Intern*

*Cambridge, MA*

- Developed a 3-D Geometry based framework for monitor displays using WebGL/JavaScript.
- Prototyped a gesture-control based UI to interface with the 3-D framework.

### NVIDIA

June 2015 - Aug 2015

*Software Engineer Intern*

*Santa Clara, CA*

- Designed and built automation tools using Python and ADB for bandwidth estimating, and testing WiFi and BT on Android clients.
- Visualized and analyzed WiFi and Bluetooth statistics extracted from Mobile devices using NumPy and matplotlib.

### Fermi National Accelerator Laboratory

June 2013 - Aug 2013

*Software/Education Intern*

*Batavia, IL*

- Researched and designed a multi-sensored, remotely operational Mars Rover model with Lego Mindstorms following for NextGenScienceStandards.
- Coded the model's movement and GUI to display live data and video in LabVIEW.

## LEADERSHIP

### StartLabs

2014 - 2016

*Co-Director & Organizer*

*MIT*

- Led and organized MIT's largest undergraduate entrepreneurship club
- Managed StartLab's network of Boston area startups and VCs to put on events such as startup treks and speakers series.

## SKILLS

C · Python · Java · Go · Scala · Django · MATLAB · Javascript · SQL · TCP/IP · WireShark
