EDUCATION

Massachusetts Institute of Technology *June 2018*

B.S. Candidate in Electrical Engineering & Computer Science

6.046	/	Algorithm Design	6.006	/	Algorithms
6.036	/	Machine Learning	6.004	/	Computation Structures
6.005	/	Software Construction	6.042	/	Mathematics for Computer Science
6.01	/	EECS Lab	6.050	/	Information, Entropy, and Computation
8.223	/	Lagrangian/Hamiltonian Mechanics	14.01	/	Microeconomics
8.03	/	Mechanical Vibrations and Waves			

TECHNICAL EXPERIENCE

NVIDIA Current

Software Engineer Intern *Santa Clara, CA*

· Researched wireless protocol enhancements; simulated the client-side optimizations with C sockets
· Built and deployed command-line based test system for Android connectivity in Python
· Created a full stack webtool for bug report parsing with Django, Apache, & SQL

MIT Media Lab: StreetScore February - June 2016

Undergraduate Researcher *MIT*

· Optimized data pipeline for Google Maps based training data in MATLAB for the StreetScore project

Hadron Industries January 2016

Software Engineer Intern *Cambridge, MA*

· Developed a 3-D Geometry based framework for monitor displays using WebGL/JavaScript
· Prototyped a gesture-control based UI to interface with the 3-D framework

NVIDIA Summer 2015

Software Engineer Intern *Santa Clara, CA*

· Designed and built automation tools using Python and ADB for bandwidth estimating, and testing WiFi and BT on Android clients.
· Visualized and analyzed large data extracted from Mobile devices using NumPy and matplotlib

LEADERSHIP

StartLabs September 2014 - Present

Director of Partner Relations *MIT*

· Director: Lead and manage StartLab's relations with sponsors and partners at MIT's leading student entrepreneurship group
· Previous: As webmaster, remodeling website from last year's design

The Tech Generation - New England Venture Capital Association March 2016 - Present

Brand Manager *Cambridge*

· Work with entrepreneurial MIT organizations to promote tech innovation

TECHNICAL STRENGTHS

Python · Java · JavaScript · MATLAB · C · SQL · Django · TCP/IP · LabVIEW · WireShark
